

Futron Corporation Risk Management Overview

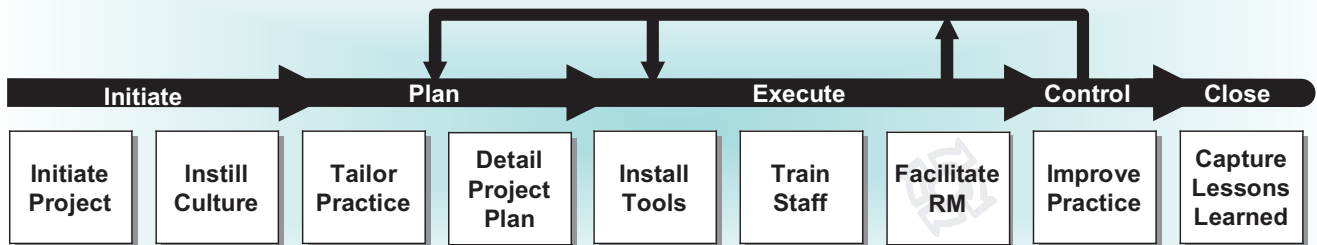

Futron's Risk Management practice provides leading edge decision support consulting services to a diverse array of industries. Our world-class team of analysts, engineers, and risk managers bring unparalleled skills and expertise to each risk management engagement. With professionals located in Bethesda, MD, Hampton, VA, and Houston, TX, Futron has supported a wide variety of mission-critical initiatives at NASA and other highly technical organizations.

Continuous Risk Management Paradigm

Summary of Capabilities

Futron's Risk Management practice follows the well established Continuous Risk Management Paradigm. Futron has well developed processes for each portion of the CRM wheel. We specialize in developing comprehensive analytic frameworks. Our risk-assessment and risk management tools enable business and government leaders to understand and account for risk in decision making. Our unique RM implementation roadmap ensures seamless integration of risk management into the culture and processes of an organization.
